AFRICAN VIOLETS ROOTED CUTTINGS

Friends, please meet Grace Ann, Brad and his mommy, Betty. Brad doesn't help much but the girls will see that your cuttings are carefully wrapped and packed to reach you in the very best condition.

Potted plants of many varieties not listed here are available at our greenhouses. Visitors are always welcome.

ROOTED CUTTINGS

Rooted cuttings when possible will be clumps of small plants ready to break apart and pot up. However, in some cases, due to heavy sales of very new varieties it may be necessary to ship less advanced cuttings: also when temporarily out of a certain variety it may be necessary to substitute a similar variety or return your money as directed.

SHIPPING

Rooted cuttings will be shipped only during warm weather from the last of April until the first of November.

MINIMUM ORDER

Minimum order is \$5.00 plus \$1.00 extra for postage, packaging and Special Delivery, which gets your plants to you quicker and safer. If you do not want them sent Special Delivery please omit 50c.

NOTICE

We increase the size of the clumps of rooted cuttings on orders over \$10.00.

INTERESTED IN HYBRIDIZING?

Want to breed a yellow or a red violet?

Dr. Sheldon Reed, geneticist, and other leading hybridizers tell you in "1001 African Violet Questions Answered by Twelve Experts," how completely new and amazingly different, Violets such as "Racy Red" with its brilliant fuchsia red star flowers, and "Star Holly" (selections) with their fairyland of delicate color and form variations, may be built from the amazingly rich reservoir of building blocks represented by the thousands of widely different varieties and species of African Violets.

The key to unlock this vast treasure house is given in simple terms of how these endless variations of color and form are the expression of recessive and dominant genes, and how you may plan your crosses so that your dream violet will become a reality.

Detailed explanations are given from the mating to harvesting the seed, planting, growing, naming, and how to groom and enter your new plant in shows.
